

## **Cadent's Connections Charging Statement:**

### **Charges for Adoption of Assets & Connections Administration Charges**

#### **Notification of change: Effective 01 November 2023**

Subject to Condition 4B(1) of our Licence requirements, Cadent must recover costs that we reasonably expect to incur in providing our services.

Charges are calculated to reflect the costs we reasonably expect to incur in carrying out the necessary connections work. These costs include necessary labour, materials, and other expenses required to complete the work. Each cost element will carry an appropriate level of overhead.

From 1<sup>st</sup> November 2023, we are increasing the charges applicable for our Adoption of Assets and Administration Charges.

The following pages will detail the changes that can also be found in our Connections Charging Statement on our website.

For further information please contact
