

# Sufficiently Complex Application Criteria

## Effective from 17<sup>th</sup> February 2020

### What's changing:

**Cadent's application criteria for 'Sufficient Complexity jobs (SCJ's) are being amended with effect from 17<sup>th</sup> February 2020. The changes to the criteria are detailed below.**

Where the total construction costs including applicable overheads, based on past experience of projects of a similar nature, is expected to exceed £250,000

Where reinforcement is identified where the total construction costs including applicable overheads, based on past experience of projects of a similar nature, is expected to exceed £500,000

Where there are known obstacles on the proposed route of the apparatus and the anticipated total cost of the construction works including applicable overheads is expected to exceed £50,000
