

Dial before you dig

Your at-a-glance guide

Six steps to stay safe

Pipeline safety advice for farmers, landowners, occupiers and contractors

- 1** Routine agricultural activities, including ploughing (to a depth of 0.5m max), are permitted. Always contact Cadent before putting in any new drainage or clearing out ditches.
- 2** Always call Cadent before installing fencing and gate posts to a depth greater than 0.5m.
- 3** Ground cover should not be reduced or increased, or materials stacked or stored above gas pipelines.
- 4** Remember, gas marker posts can be accidentally moved, pipelines change direction and may not always run in straight lines between posts.
- 5** Written approval must be gained from Cadent before you plant trees or shrubs on the easement strip above a gas pipeline.
- 6** If necessary, a technician will visit the site to locate and mark out the pipeline, and advise on what works can and can't be done safely. This is a **FREE** service.

Don't cut corners — dial before you dig

Other than routine agricultural activities, **DO NOT CARRY OUT work in the vicinity of a pipeline without the consent of Cadent.**

Please remember to supply:

- a clearly identifiable plan, site grid references or postcode
- works start date
- contact details
- details of planned work

Failure to supply this information may result in delays.

Please give as much notice as possible, ideally 14 days.

We will check the location of any assets in the vicinity of the proposed works. You will then be sent a map showing the pipeline's location.

Emergency

If you hit a pipeline, whether the damage is visible or not, or in the event of an emergency, call the National Gas Emergency Service immediately on

0800 111 999*

*All calls are recorded and may be monitored

If you are planning to do work in the vicinity of a pipeline, please contact the Plant Protection team for free on:

Self service for plant enquiries

cadentgas.com/digging-safely

This is a free online enquiry service giving results within minutes from a grid reference, postcode or street name. This site allows you to submit enquiries about activities and work that you are planning, which may have an impact on the Cadent gas distribution.

linesearchbeforeudig.co.uk

This is a free online enquiry service giving instant results from a grid reference, postcode or street name. If your result is within a zone of interest, you can click directly through to **cadentgas.com/digging-safely**

Note

Linesearch service is not available for all Cadent pipelines. Therefore, please click on the Cadent link or call Plant Protection to ensure you have all the available information.
