Dear Customer,

I am writing to advise you of an increase in the charges applied to the administration of Fast Track design approvals, and the production and administration of Quotations within the *Third party (iGT & UIP) connections* process at Cadent. These charges were last increased in February of 2018, and as advised in the communications sent at that time, they are subject to an annual increase in-line with RPI. Therefore, from 01 April 2019, the charges will increase by 3.33%, please see the table below for the revised charges.

FAST TRACK CHARGES			
Customer Type	Manual	Portal	Portal & Pre- Auth
IGT	£117	£104	£70
UIP to Connect (<63mm)	£139	£126	£92
UIP to Connect (≥63mm)	£159	£146	£112

QUOTE CHARGES		
Customer Type	Manual	Portal
IGT	£231	£217
UIP to Connect (<63mm)	£258	£244
UIP to Connect (≥63mm)	£275	£261

Please note that Cadent remain committed to continually improving for our customers, so our ambition is to absorb the cost of inflation for the following year 2020/21, via a process efficiency drive throughout 2019/20.

If you have any questions about the above, do not hesitate to contact me on the details above.

Yours sincerely,

Peter O'Neill
Stakeholder Specialist
